

RENDEZ-VOUS AGROALIMENTAIRES OUTAOUAIS 2022

Photo : Éric Labonté, MAPAQ

The **Table agroalimentaire de l'Outaouais**, in partnership with the **Direction régionale de l'Outaouais du ministère de l'Agriculture, des Pêcheries et de l'Alimentation**, is pleased to offer you another virtual edition of the annual Rendez-vous agroalimentaires. On the menu: conferences and testimonies from various specialists on topics such as regenerative agriculture, marketing, startups and food processing.

Once more this year, these events are offered free of charge and offered as webinars. In total, 7 webinars in French and 2 in English will be offered. To complete our program, we also included a webinar organized by the MAPAQ at the provincial level.

Enjoy the conversations!

FREE WEBINARS

REGISTRATION DEADLINE TO ATTEND AND GET ZOOM LINK | THE EVE OF EACH EVENT

FEBRUARY 9th : 7 PM - 9 PM | STARTUP

March 3rd : 7:30 PM - 8:30 PM | BEEF PRODUCTION

The Coop: Another Startup Model

Heather Syposz & Natalie Childs | Agricola Cooperative Farm + Sébastien Carrier | Coopérative de développement régional (CDR) Outaouais-Laurentides. The cooperative is a lesser-known business model. However, more and more starting up producers choose this legal structure. Why this choice? What are the pros? Is this for you? Is it complicated to set up a coop? Come learn more about cooperatives in order to guide you through your decisions. To register :
Chantal Leduc | chantal.leduc@mapaq.gouv.qc.ca

Regenerative Agriculture Applied on Our Farm

Paul Slomp | Co-owner of Grazing Days Farm
Agriculture alone generates 9.6% of greenhouse gas emissions in Quebec. Grazing Days Farm wishes to reverse this trend by embracing the principles of the regenerative agriculture movement. Paul Slomp will share his experience of implementing these practices aimed at restoring soil to fight against climate change on his farm.
To register :
Linda Larocque | linda.larocque@mapaq.gouv.qc.ca

PROVINCIAL EVENT THAT MAY INTEREST YOU:

February 9th : 9 AM - 11 AM h | CASH CROPS

Innovations & On-Farm Trials

David Bullock and Nicolas Martin, University of Illinois. How and why farmers can increase profits using precision technology to conduct research on their own fields. To register :
Christine Rieux | christine.rieux@mapaq.gouv.qc.ca
